**Stage 2 Team Purpose Statement 2014**

We serve the students and families of the Bomaderry Public School by providing a Quality Teaching Environment that enables students to meet the educational outcomes as prescribed in the NSW syllabus documents, all the while addressing student well-being and maximising learning opportunities.

We will do this to ensure our customers achieve the identified priority areas of the school plan in Aboriginal Education, Literacy and Numeracy, Engagement and Attainment.

By doing this we help our school achieve the summary of targets, specifically, those relating to Year 3 and 4.

We will drive the B.P.S. School Plan through:

- Personal Learning Plans
- Quality Teaching
- Consistent Teacher Judgement in planning, programming, reviewing and assessing
- Implementing professional development
- Differentiation and engagement
- Utilising Student Learning Support Officers, the Aboriginal Education Officer and Learning Support Team to their full potential
- Being accountable to each team member and our customers.

Signed
